I currently work as a freelance Camera Operator, Camera Assistant and Lighting Technician.

Cinematography and Lighting are my passions and I have worked in varying positions within the camera/lighting department as well as working as a Camera/Video Trainee and on larger scale productions.

One of my biggest achievements is working as a camera operator on "Massacre At Ballymurphy" which was broadcast on Channel 4/RTE and was nominated for a BAFTA in the Current Affairs category.

I have also worked as a lighting technician on numerous short films, corporate promo videos and commercials.

I was the sole lighting department on the NI Screen funded feature "Black Medicine" which was shot over 3 weeks in Dec 2019.

I work hard, learn quickly, am extremely adaptable and can troubleshoot problems quickly. I am adept at coming up with unique solutions to problems on set.
